

RainingData D3

Новости. Май 2007

Raining Data

- Gartner (Leading Industry Analyst Firm): Raining Data is Cool Vendor
- TigerLogic XML Workflow Management Server (XWMS)

D3 7.5 News

Debugging Tools

- The BASIC Debugger allows dynamic array and substring references and changes.
- The ability to break into a phantom line while tandemed.

Flexibility

- The logon process allows custom MD and MD password prompts.
- The date format may be set locally for each PIB.

D3 7.5 News

Maintenance Tools

- Allows retrieval of the date and time a program was last run and how many times a program has been run since the last recompile.
- When a logon fails due to insufficient user licenses, the system logs an entry in the errors file.
- SQL tables associated with an account can be automatically deleted with delete-account.
- Allows users on remote machines using OSFI to be listed.

D3 7.5 News

Maintenance Tools

- Automatic time adjustment when daylight savings time is properly configured on the host UNIX server.
- Shortened restore time with a new option to suppress the generation of indexes.
- Allows an ODBC connection timeout to be set.

Performance

- ACCESS utilizes indexes with the additional >, >=, <, <= and # operators.

D3 7.5 Enhancements

- Enhanced ACCESS by adding MD entries `hdr.user`, `hdr.pib`, `hdr.date` and `hdr.time` for display with the "hdr" driver.
- Enhanced the "output-macro" d-pointer function to recognize the "total" modifier.
- Enhanced Access with checks to ensure multiple wildcards are not used.
- ...
- ... (всего 110)

D3 7.5 Reference Manual Online

<http://www.rainingdata.com/support/documentation/d3nt/75/refman/index.htm>

The screenshot shows a Mozilla Firefox browser window displaying the D3 Reference Manual. The address bar shows the URL: <http://www.rainingdata.com/support/documentation/d3nt/75/refman/index.htm>. The page content includes a table of features that function differently in D3 NT vs. UNIX.

Command/Feature	Description
% function calls	For D3 NT, must be compiled in FlashBASIC.
access (z) function in triggers	Not supported for D3 NT.
Commons in VB Rule Modules and Triggers	For D3 NT, COMMON is no re-initialize time a FlashBASIC subroutine is started. COMMON space persists and is closed when the file is closed.
compile command's k option	Not supported for D3 NT.
Current account in triggers and rule modules	When a trigger is invoked from a no application (for example, Visual Basic, Manager, FlashBASIC DOS executable), current account is the account where resides. If the trigger opens a file in account, the full path must be specified.
file command	Not supported for D3 NT on FlashBASIC.

[Разделы](#) / [FlashBASIC](#) / [Операторы](#)

Операторы

\$chain	Передает управление
\$options	Устанавливает режим совместимости для компилятора BASIC
abort	Завершает программу или процедуру PROC
assignment	Присвоение переменной значения
aux	Включает или выключает подкачку данных во вспомогательный порт
begin-transaction	Открывает транзакцию
break	Включает или отключает клавишу <Break>
call	Вызов внешней подпрограммы FlashBASIC
capturing	Переключает захват вывода
case	Множественный оператор условия
casing	Включает или выключает различение регистра
cfunction	Декларирует список C-функций
chain	Передает управление исполняемому выражению TCL
